best vr mmo in my life. What you get:

Test out 3 classes.

Wizard, Archer, Gunslinger

Wizard is frustrating as you can't just cast the spell pattern.

Gunslinger is more fun but guns need to feel punchier.

Archer is clearly the best class and more fun.

One Enemy asset.

Alot is missing from this game.

No NPC

No player character models.

No enemy AI

No other players.

Only one enemy asset.

Maybe no actual server?

The description accurately says what this is. Its a concept demo asking for money to complete this project.. 3V10!

Open game and leave running = all achievements.. For every flavor-of-the-month tryhard meta product, and for every 50 puzzle-based exploration games, one RPG Maker game gets a good story, good pacing, consistent worldbuilding and, most importantly, tight gameplay.

This is that RPG.

Sojourner gives you 10 well-drawn classes with unique benefits and drawbacks from which to build you party. Every enemy brings something different to each encounter, even if it's just a dumb joke. This is built off the Dragon Quest formula, and made more accessible for a new generation of newbies to enjoy.

Speaking of accessibility, there are helpful (and funny) NPCs scattered everywhere, even a stone's throw away from the final boss. One of them tells you how to get the secret ending, too. No need to replay the entire adventure for something you might have missed. RPGs often have odd secrets that force people to look up a wiki or buy a strategy guide, but Sojourner goes in the exact opposite direction: It is self-contained, and encourages you to find everything it hid in its multiple worlds.

The story is fairly light, but its message of positivity and optimism is a welcome change from the modern trend of 2deep4u meta stories. There's no tricks here. It knows what it wants to do, it tells you, and it delivers with both an earnesty and charm unseen in the current market.

This game is a thematic throwback to the NES days, but with modern conveniences. Get comfy and start exploring.. this game is amazing and addicting def reccomend. This game is quite underrated. It's a fun and goofy casual game you can enjoy with some friends or even with strangers - if you're lucky enough to find a server with people in.

The voice acting is pretty neet even though sometimes it's a bit cringy.

I really like the cute but slightly creepy vibes, however the font they used is... um... it doesn't blend quite well with the graphics in my opinion.

The best part is that it's free! So give it a try folks!. One word....bouncy :). Solar Gun is an FPS puzzle game with some shooting mechanics.

You know what this means...

it takes a lot of inspiration from Portal and various other indie puzzle games, both in world design, art style and puzzle design.

There are some visuals from 2001: A Space Odyssey for some reason. Using monolith imagery should make some kind of sense, otherwise it's just a reference that doesn't mean anything.

The puzzles are typical, not exactly mind blowing, but they keep you occupied for a few minutes/hours. The environments aren't quite illogical, but the attempt at worldbuilding is commendable.. Id pay 60 bucks for this game.. Great movie, but english

subtitles are terrible. Too succinct, and frequently downright wrong (when compared to the english voice track.)

INTERNET CONNECTION REQUIRED FOR ONLINE GAMING. This title still needs a good amount of work but I can already tell that it is going to be great. We need more educational titles for VR. It still has a few big bugs to be worked out, so maybe wait til it has a patch or 2 before buying, but im still giving it a thumbs up.. it looks a good game however for me it keeps on lagging. you cant get th17 without beer money for zun,so just buy this game.. WALL-E meets Super Mario. It ran in a background process for 9 days straight. 10/10. it seems this engine is dead ,wasted my money dont buy. Crazy Saloon VR is an unpolished VR experience. It offers little in the way of entertainment, as the minigames are all extremely poorly executed (technically speaking) and there is a pointless mechanic of needing funds for minigames. Crazy Saloon VR is CRAZY BAD, avoid it.
